Claims 1-10 are presented for examination.

Applicants' preliminary amendment filed December 16, 2003 has been received and entered.

Double Patenting

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claims 1-10 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-10 of prior U.S. Patent No. 6,664,257.

The present application and the patented application are claiming the same invention:

An antimycobacterial compound;

A pharmaceutical composition comprising the antimycobacterial compounds;

A method of treating an animal infected with a disease-causing microorganism of a

Mycobacterium species:

A method of killing a microorganism infecting a mammalian cell; and

A method of killing a tuberculosis-causing microorganism infecting a mammalian cell.

This is a double patenting rejection.

Claims 1-10 are not allowed.
